We'd like to share the second and last output of CIVIC, the booklet *"Recovery and respect human rights housing mental health services: from problem to solution"*

The main content of the booklet has been agreed during the CIVIC Teaching Training Learning meeting in Guimaraes, in November 2021.

It was based on quality housing indicators selected from Hero projects.

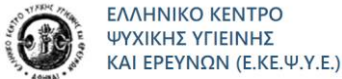

It was based on recovery and human rights principles.

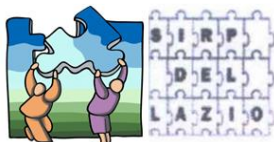

It could be used as practical tool for starting, improving or transforming housing projects for people with complex mental health needs.

Download the booklet from the CIVIC section of the following website where the booklet is available in English, Greek, Hrvatski, Italian and Portuguese
