

**CIVIC**  
COMPETENT INHABITANTS TO VALORISE INCLUSIVE COMMUNITIES

Code 2020-I-IT02-K204-079043

## Newsletter n 1/2021

**CIVIC** is a project for the exchange of experiences on the subject of **HOUSING in mental health**.

Five organizations from five European countries are in charge of updating and sharing training tools for local communities on this issue, supported by two associated partners.

The Training Curriculum developed by the HERO project, which refers to precise quality indicators for housing, will be updated with the lessons learned from the recent experiences of the Covid emergency.

CIVIC partners will produce:

1. a TUTORIAL to facilitate the use of the Training Curriculum, keeping in mind the impact of the pandemic on the main issues of housing for people with experience of mental health issues (rules, autonomy; socialisation; solitude; habits, news, etc).

2. A booklet titled: «What to do in case of...» with suggestions and ideas for a good housing.

The next newsletter will keep you updated on the progress of CIVIC.

Please contact us for further information, and if you like, for sharing with us your experience on the subject.

Thanks for your attention.
